StockEdge Karo Smart Investor Bano

StockEdge is India's best Stock market research & analytics app with over 3 million downloads, primarily based on NSE & BSE data. It helps the Indian Stock market Traders and Investors track stocks and make better decisions by providing them with end-of-day analytics visualizations to suit individual needs and at the same time analyze the market data. This is a must-have app to manage your money better and get control of your investments in the share bazaar.

Key features of our app-

- Robust Analytics - Get access to premium features of StockEdge like powerful analytics, combination scans, additional technical & fundamental scans, interactive edge charts, and an ad-free experience.
- Community Learning - You will join four groups on StockEdge social for Real-time doubt clearing on technical topics and an Active knowledge forum with idea sharing on important Technicals and Fundamentals that work.
- Knowledge Enhancement - StockEdge Club members have free access to the most popular course, "Basics of Financial Markets," to understand Stock Markets.
- Expert-led Learning - Get the opportunity of Expert-Led Learning in the form of 12 paid webinars. Each webinar will delve deep into specific aspects of stock picking.
